"The Norm" Truck Safety Fill Spout

For Safety and Convenience

By: Never Spill Spout Inc. - Full Bin Alarm

You know us from our NEVER SPILL SPOUT Full Bin Alarm. It has helped over 10,000 farmers fill grain bins without the need to climb bins for 19 years.

1. Sit inside the truck, move forward when alarm sounds
2. When shoveling in the bin, you can hear the alarm and move the truck ahead as needed
3. Fits 7"-10" augers
4. Comes with splash guards, sensor, alarm and wire

Why "THE NORM"?

Norm was a truck driver from our area. He fell from the ladder when he was filling a grain truck and died from complications of the fall.

Stay safe on the ground with "THE NORM".

If you have a separate auger for filling trucks, "The NORM" Truck Safety Fill is the perfect option for you.
