

Performance Enhancing POLY PRODUCTS and MORE

Poly Cupped Flighting

Continuous poly surface for conveying abrasive materials. Damaged individual modules may be replaced.

Grain Tank Auger Floor Liner

Protects the area of your grain tank that needs it the most and wears out the quickest.

Tru-Tube

Straighten damaged auger tubes on grain platforms, without pry bars, torches or other tools. Fits easily into your tool box.

Seed Flow Sensor Impact Wear Plate

Economical replacement compared to purchasing the entire OEM assembly. This is a poly plate for the mass seed flow sensor on John Deere combines. Plate comes pre-drilled, hardware included.

Replacement MacDon Skid Pads

- Available in 3/8" thickness
- for models 974 ,D50 D60,D70 FD65, FD75, FD140, FD145, FD1

Auger Wear Shoes and Tube Liners

Smooth poly provides a slick surface for grain to flow freely. Each shoe covers one pitch. Fits onto new or worn steel flighting.

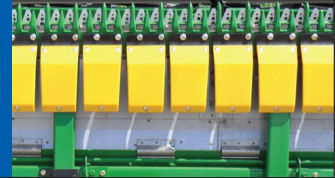

Clean-out Boot

Simply slips over the end of your auger to safely get the remainder of your bin contents into the truck. It sure beats using a pail!

Poly Skid Shoes

3/8" thick molded poly for perfect tight fit. Thicker in high wear spots - thin for flex areas.

QUICK-Fingers

Super strong poly replacement finger allow you to replace reel fingers quickly and easily right in the field. Paddle tines for MacDon, HC and JD.

Feeder House Silencer Kit

Reduce the rattle and clatter of metal on metal and chain on metal with a poly feederhouse silencer kit.

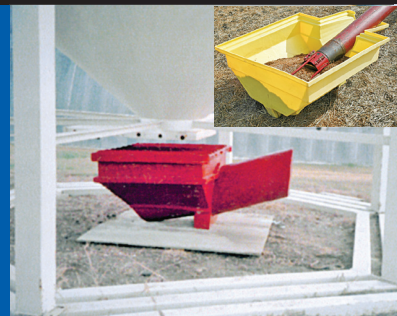

Drawbar Wear Washer

Friction barrier for metal on metal. 4" or 6" OD washers in 3/8", 1/2", 3/4" thickness.

Multi-Purpose Boot

Works on the same principle as a Triangle or Big Daddy hopper, but uses a tube instead of a strap for support. Comes with a slide-on lid. Multi-Purpose Boot is 22" high, and can be cut to 16".

Poly Pick-up Bands

Replacement for OEM metal. Longer wear and will not bend or break.

Mega Boot (inset)

Designed to fit 16" and larger augers.. 22" high x 40" wide x 39" long
