WATER SOLUTIONS

Crary Revolution Ditcher creates and maintains waterways, ditches and terraces. It can cut a 5 ft flat bottom swath in a single pass, throw dirt up to 165 ft in both directions, or windrow beside the swath. It features a cross auger design that breaks up clumps and feeds material evenly. And bolt on wear parts. The Revolution Ditcher is the new standard in waterway management.

Tile PRO

Tile PRO offers commercial quality results with a frame mounted steerable plow. Ask about the benefits of active weight transfer, stability, traction and unmatched mobility with tracked tractors.

Mineral & Seed Tote Bins

These Canadian made all steel bins are built solid to last and finished with a durable powder coated finish. Finally a dry feed storage solution that is low cost, easily transported from farm to pasture/property on your farm, acreage or business!

The Agro Trend Mineral Bin is a raised bin with center fill lid for easy auger fills, a centered pail chute that fits a 5 gallon pail perfectly. These are perfect for: Feed Storage, Dry Mineral, Granular Fertilizer, Pellets, Alfalfa Cubes or Powdered Chemicals. The possibilities are endless. Sizes available in Western Canada are: 100 Bu, 75 Bu, or 50 Bu Mineral Bins.

The 50 Bu Seed totes are perfect for the remaining seed in your bulk bags. These low profile bins have a pail chute for easy unloading. Can easily be secured to a trailer or flatdeck for easy unloads into your airseeder auger or into feed troughs. Give us a call today!

SNOW BLOWERS

Canadian Built snowblowers that stand up to the test of time. AgroTrend snowblower lineup includes an adjustable chute deflector that comes standard. With a high quality finish, high efficiency fan, formed steel construction and smooth operation, AgroTrend snowblowers can handle just about anything you throw at them.

Available in 3 pt. hitch, skid steer mount or pull behind models, from 48" to 120".
