

**Has Grooving and Scarifying  
let you and your cows down?**

# AGRI - TRAC CAN FIX THAT!

- Increase milk production
- Increase heat detection
- Reduce hoof & leg injuries
- Reduce cull rates

*We are adding another machine and crew because of an increased demand.*

*Our machines are custom made and patented.*

*We are the only producers of Traction Milling in the world.*

*Celebrating 28 Years of True Traction!*

*"We have been using AGRI-TRAC for at least 20 years!  
Awesome crew of people and would definitely recommend. Heifers walk calmly to feed bunk now instead of being nervous and slipping. Works great on slats and cows are calmer when sorting and moving them."*
